**DETAILED ACTION**

1. The amendment filed June 25, 2008 has been entered. Claims 45, 47, 52, 54 and 58-62 are cancelled. Claims 1-43, 46, 48-51, 53, 55-57 and 63-71 remain pending.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-40 and 63-70, drawn to a method and apparatus for spill-free refueling.

Group 2, claim(s) 41-44, 46, 48-51, 53, 55-57 and 71, drawn to and optical liquid level detection system.

3. The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the claims of group 2 do not include the liquid-tight connection between the fueling nozzle and the container as required by group 1 and the optical detection system of group 2 is not present in claims 1-3, 13-16, 19-21 and 33-38 of group 1.

4. A telephone call was made to Benoit Castel on August 26, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
